Hello,

I sent you a letter approx 2 weeks ago, I beg of you to read that letter ASAP, As my eyes are fading fast. Time is very important, not meaning to rush you. I have requested emergency medical, and not received any yet.

We are in code RED Covid lock-down, I fear if they wait for it to clear, I feel, there will be not be any possible return of my vision. Presently, they titled me as legally blind. The BOP keeps saying appointment has been made, then they claim its canceled.

I ASKED for urgent medical attention  
time-after-time, since NOV 19, 21;  
AND nothing happened.

I spoke to Warden many times about  
medical, AND suggested Home Confinement  
to get medical care at the VA.

So far this has been UN-ANSWERED.  
I feel the 3553(a) factors - danger to the  
community would be null/void, AS I AM BLIND.

I ASK of your help.

THANK YOU =
